

DAY
1

Expect something different.

88% of dogs and cats lost weight in two months at home¹

DAY
60

and the rest of his life

Hill's® Prescription Diet® Metabolic Advanced Weight Solution is clinically proven to:

- **Work with each pet's unique metabolic response** to activate the body's natural ability to burn excess body fat and affect calorie utilization¹
- **Real results in the real world.** Without strict protocols or precise measuring, **88% of pets** in a veterinarian supervised in-home study **lost weight**¹
- Provide **28% body fat loss in two months in dogs** and **29% body fat loss in two months in cats**¹
- Avoid weight regain following a weight loss program¹

Available in canine and feline formulas

Real results in the real world

[Dry + Canned + Treats]
Available in feline and canine formulas

All therapeutic foods work in clinical settings under strictly controlled conditions, but Metabolic Advanced Weight Solution is proven to work in real homes with real pets and their owners under real world conditions.

- Complete portfolio includes dry, canned and treats to fit the way clients feed their pets
- Safely and naturally supports weight loss and maintenance
- Confidence in the great taste backed by a 100% money-back guarantee
