Weight
MANAGING YOUR PET'S WEIGHT

feeding the love losing the weight

Over 50% of pets are overweight.¹ Is yours?

SCIENCE DID THAT.

1 in 3 pet parents do not recognize their pet's weight issue¹

Signs include:

- Ribs cannot easily be felt
- Loss of an obvious waist
- Collar needs loosening
- Difficulty walking
- Slow movement
- Shortness of breath*
- Sleeping more than usual

Common causes:

- Breed
- Age
- Lack of exercise
- Overfeeding
- Over-treating

Managing your pet's weight issues

Overweight and obese pets can be at an increased risk for developing health conditions due to excess weight. Feeding the right food is one simple step you can take to help your pet slim down. Through nutritional science, Hill's weight management foods help pets lose and maintain a healthy weight.

nutrition to help you feed the love

Plus other great nutrition your vet may recommend
